Keeping everyone safe

All appointments must be pre-booked in advance and we will not be accepting walk-ins. At this time, we will be offering a reduced treatment menu not including facials.

Our therapists have received additional training on health and safety protocol and will be provided with additional safety equipment to wear during all appointments. We have also increased turn-around time between guests to allow for thorough cleaning of the treatment rooms and personal safety equipment. Treatment rooms will be fogged with sanitiser every day.

We ask that all guests please shower before arriving for their treatment and use hand sanitiser before entering the treatment room. We will be taking temperature checks of guests and therapists before every treatment.
